ACTIVITY REPORT

Name of the Activity	Digital Communication	
Type of Activity	ICT Skills	
Date and Time of Activity	2/19/2022	10:00AM
Details of Participants	50	
Resource Person	Mr.Pratap	
Description	<p>On the 15th of February 2022, Moonray Institute of Pharmaceutical Sciences hosted a foundational computing skills workshop centered around the theme of "Digital Communication," commencing at 10:30 AM. Tailored to enhance students' digital competencies, the session delivered practical insights into adept internet navigation and proficient email communication. Participants acquired firsthand experience in efficiently exploring online resources and garnered knowledge on effective practices for composing and managing professional emails. The primary objective of the event was to empower students with indispensable skills applicable to academic research, communication, and their future professional pursuits. Through this initiative, MIPS College underscored its dedication to furnishing students with practical computing abilities essential for navigating the contemporary landscape of pharmacy education and practice, ensuring their preparedness for the challenges of the digital era..</p>

ACTIVITY REPORT

Name of the Activity	Mobile Health Applications	
Type of Activity	Computing Skills	
Date and Time of Activity	9/20/2023	10:00AM
Details of Participants	50	
Resource Person	Mr.Pratap	
Description	<p>The Mobile Health Applications and Computing Skills event at Moonray Institute of Pharmaceutical Sciences on 20th September 2023 provided an insightful platform for pharmacy students to explore the intersection of healthcare and technology. The event focused on enhancing computing skills relevant to the pharmacy domain, with a particular emphasis on mobile health applications. Students engaged in hands-on workshops and interactive sessions, gaining practical experience in utilizing health informatics tools, understanding pharmacy information systems, and mastering the use of mobile health applications. The curriculum encompassed data management, information security, and the integration of technology in pharmacy practice. This event not only equipped students with the necessary skills to navigate pharmacy automation and robotics but also fostered a comprehensive understanding of telehealth technologies. By promoting a forward-looking approach to pharmacy education, the event empowered students to leverage computing skills for improved patient care and efficient pharmacy operations in the evolving landscape of healthcare..</p>

Description	<p>On the 24th of December 2020, Moonray Institute of Pharmaceutical Sciences orchestrated a specialized session titled "ICT on Applications and Uses of Animal Stimulator" at 9:30 AM, spotlighting computing skills within the pharmaceutical education domain. The event delved into the incorporation of Information and Communication Technology (ICT) in pharmaceutical contexts, with a specific emphasis on the practical uses and applications of animal stimulators. Participants actively participated in hands-on sessions, exploring how ICT tools enhance research methodologies involving animal models in pharmaceutical studies. The primary objective of the event was to narrow the gap between conventional pharmaceutical practices and cutting-edge technology, ensuring that students possess adeptness in leveraging computing skills for advanced research in pharmacology. Through this initiative, MIPS College underscored its unwavering commitment to staying at the forefront of technological integration within pharmaceutical education, preparing students for a future where computing skills play a pivotal role in innovative advancements within the field..</p>
