Description	<p>The Department of Pharmaceutical Analysis at Moonray Institute of Pharmaceutical Sciences organized the successful Annual Conference on "Interpretation of Peaks in Chromatography." The event aimed to provide a collaborative platform for researchers, academicians, and industry professionals to share advancements in analytical techniques. The inaugural ceremony, led by the Principal, emphasized the significance of analytical techniques in pharmaceutical research, with distinguished guests from both industry and academia setting the intellectual tone. Renowned expert Dr. Reddi Basha delivered insightful keynote addresses, covering topics such as chromatography and spectroscopy. The conference featured technical sessions focusing on method development, validation, and application of analytical techniques in pharmaceutical analysis. Engaging panel discussions explored current trends, and a dedicated Industry-Academia Collaboration Forum aimed to translate research outcomes into practical applications. An exhibition showcased cutting-edge instruments, and a poster competition allowed young researchers to present their work. The event provided extensive networking opportunities, fostering connections among researchers, students, and professionals. Overall, the conference, orchestrated by the Department of Pharmaceutical Analysis under the guidance of the Head of Department, was a commendable success, serving as a knowledge-sharing platform and strengthening collaborations between academia and industry in the field of pharmaceutical analysis.</p>

Description	<p>The event commenced with the principal addressing the assembled audience and extending a warm welcome to the guest. Following this, the Head of the Department (HOD) introduced the guest and then handed over the platform to the speaker. The speaker initiated the session by outlining the objective, which was to explore the trends in high-impact studies within the field of pharmacology and pharmacy research. The aim was to generate valuable insights to guide future research endeavors in this area. The participants displayed enthusiasm and actively raised questions and concerns, which were addressed by the speaker. They gained knowledge and, towards the conclusion of the session, the speaker presented the findings derived from the research. To wrap up the event, the HOD expressed gratitude and appreciation, and the guest was honored with a token of recognition.</p>

Description	<p>The Department of Pharmaceutics at Moonray Institute of Pharmaceutical Sciences conducted a seminar on "Challenges in the Manufacturing of Parenterals" on January 22, 2023. The event aimed to address the intricate issues encountered in the production of parenteral pharmaceuticals. The seminar commenced with an inaugural session, highlighting the significance of overcoming challenges in parenteral formulation. Renowned experts presented on diverse topics, including sterile formulation development, aseptic processing, packaging complexities, and regulatory considerations. Interactive sessions allowed participants to engage in discussions and gain deeper insights, supplemented by real-world case studies illustrating practical challenges and solutions. A panel discussion brought together experts from academia and industry to explore collaborative approaches in overcoming manufacturing challenges, encouraging audience participation. The seminar facilitated networking opportunities, fostering connections among professionals, researchers, and attendees. The overall objective was to provide a comprehensive platform for knowledge-sharing and collaboration, bridging the gap between theoretical understanding and practical solutions in parenteral manufacturing. Organized by the Department of Pharmaceutics, the seminar successfully contributed to advancing discussions and potential solutions in the complex landscape of parenteral pharmaceutical production.</p>

Description	<p>The Department of Pharmaceutical Analysis at Moonray Institute of Pharmaceutical Sciences organized a Seminar on the "Submission of New Drug Application" to address the complexities of regulatory processes in bringing new drugs to market. The event commenced with an inaugural session emphasizing the critical role of New Drug Applications (NDAs) in the pharmaceutical industry. Expert presentations covered the intricate regulatory landscape, focusing on documentation requirements, adherence to guidelines, and the importance of data integrity in the application process. Case studies and best practices showcased successful NDA submissions, offering practical insights into real-world challenges. Interactive workshops allowed participants to explore document preparation, data organization, and effective communication with regulatory agencies. A panel of experts engaged in a comprehensive discussion on challenges and evolving trends in NDA submissions, fostering audience participation. The seminar provided networking opportunities for attendees to connect with industry professionals, regulatory experts, and peers, promoting collaboration and knowledge exchange. Overall, the event, organized by the Department of Pharmaceutical Analysis, successfully enhanced understanding, facilitating dialogue on NDA</p>

EVENT REPORT

Name Of The Activity	Modern techniques involved in synthesis and analysis of drugs	
Type Of Activity	Seminar	
Date And Time Of Activity	23/9/2022	10.00AM
No. Of Participants	19	
Resource Person	Dr. Aswini Rathode	
Coordinators	Department of Pharmaceutical Analysis	
Description	<p>The event initiated with the principal warmly welcoming the assembled audience and introducing the guest. Subsequently, the Head of the Department (HOD) presented the guest and transferred the platform to the speaker. The speaker delved into the pharmaceutical industry's historical trend of achieving consistent double-digit growth in annual sales. However, the discussion acknowledged a foreseen decline in this growth due to impending challenges such as patent expirations, the necessity to curtail healthcare expenses, heightened investments in sales and marketing, and escalating research and development costs. Despite these obstacles, the pharmaceutical market for major therapeutic drug classes remains substantial, surpassing \$350 billion annually. This underscores the importance of exploring fresh opportunities in drug discovery, albeit in an industry undergoing consolidation and grappling with pricing pressures. Effectively managing the substantial risks and costs associated with pharmaceutical research and development becomes paramount in this context. To wrap up the event, the HOD expressed gratitude and appreciation, culminating in the acknowledgment of the guest with a token of recognition.</p>

No. Of Participants	12	
Resource Person	Dr. Patheep Naik	
Coordinators	Department of Pharmaceutics	
Description	<p>On April 12, 2022, Moonray Institute of Pharmaceutical Sciences hosted a highly successful seminar focused on "Literature Review and Protocol Preparation" within the Department of Pharmaceutics. Dr. K.V. Subramanyam, a distinguished expert in the field, served as the resource person for the event. The seminar aimed to enrich the research skills of both students and faculty by delving into the critical aspects of literature review and protocol development. The seminar commenced with a warm welcome address by the Head of the Department, setting the stage for an insightful day of learning. Dr. Subramanyam initiated the first session by elucidating the essentials of literature review, emphasizing its role in framing research questions and identifying gaps in existing knowledge. Practical insights on effective literature search strategies and information organization were provided, offering participants tangible tools for their future research endeavors. In the second session, Dr. Subramanyam turned the focus towards protocol development for pharmaceutical research. He outlined key components, including study objectives, methodology, ethical considerations, and data analysis plans. Real-world examples and case studies were employed to illustrate best practices, allowing participants to grasp the intricacies of protocol preparation. Overall, the seminar on</p>

Description	<p>Moonray Institute of Pharmaceutical Sciences conducted a workshop on Expharma Software on May 20, 2022, under the auspices of the Department of Pharmacology. The workshop, facilitated by Mrs. Vinitha, aimed to familiarize participants with the practical applications of Expharma Software in pharmacological research and drug development. The event commenced with an insightful overview of the software's features and functionalities, followed by hands-on training sessions that provided attendees with a practical understanding of data input, analysis, and interpretation using Expharma. Real-world case studies demonstrated the software's versatility in addressing pharmacological challenges, and an interactive Q&A session allowed participants to engage with Mrs. Vinitha on specific features and best practices. The workshop's success was underscored by its emphasis on experiential learning, empowering participants with practical skills in utilizing Expharma Software. Mrs. Vinitha's expertise and the interactive nature of the session ensured that attendees left with valuable insights and a heightened ability to apply Expharma in their academic and research pursuits. Description	<p>Moonray Institute of Pharmaceutical Sciences hosted a comprehensive workshop on CPCSEA Guidelines and Animal Handling Techniques on July 10, 2022, under the auspices of the Department of Pharmacology. Dr. Baba Fakruddin, a distinguished expert, led the workshop, providing participants with a thorough understanding of CPCSEA guidelines governing ethical practices in animal experimentation. The event began with an in-depth overview of the regulatory framework, emphasizing the importance of humane treatment and responsible conduct in animal research. Dr. Fakruddin further guided participants through practical demonstrations of essential animal handling techniques, ensuring a seamless integration of theoretical knowledge with hands-on skills. The workshop's success lay in its emphasis on ethical principles, including the 3Rs concept, and the practical application of CPCSEA guidelines in laboratory settings. Interactive discussions and a robust Q&A session allowed participants to engage directly with Dr. Fakruddin, addressing concerns and gaining valuable insights into the ethical considerations and challenges associated with animal research. The workshop concluded with the distribution of certificates, acknowledging</p>

Description	<p>Moonray Institute of Pharmaceutical Sciences hosted a seminar on Biomedical Literature Critique on March 9, 2022, facilitated by the Department of Pharmacology. The seminar, featuring Mr. Amith Joshi as the resource person, aimed to enrich the critical analysis skills of participants in evaluating biomedical literature. Beginning with an emphasis on the importance of staying abreast of research trends, the seminar delved into key concepts such as identifying research gaps, scrutinizing study design and methodology, and understanding statistical methods. Mr. Joshi's guidance included practical tips and real-world examples, enabling participants to apply effective critique strategies to diverse research articles. The interactive session further enhanced the learning experience, providing a platform for participants to discuss queries and share experiences. Certificates of participation were distributed, recognizing attendees' commitment to advancing their skills in biomedical literature critique. The seminar's success lay in its comprehensive approach, combining theoretical concepts with practical</p>

Description	<p>Moonray Institute of Pharmaceutical Sciences hosted a seminar on Evidence-Based Decision-Making on November 21, 2021, organized by the Department of Pharmaceutics. Dr. Anandh Goud, a notable expert, served as the resource person, guiding participants through key principles and frameworks essential in the pharmaceutical industry. The seminar emphasized the critical role of evidence from credible sources in shaping decision-making processes, ranging from drug development to regulatory compliance. Real-world case studies and interactive discussions enriched the learning experience, providing participants with practical insights into applying evidence-based approaches in pharmaceutics. Dr. Anandh Goud's seminar not only introduced the fundamental concepts of evidence-based decision-making but also highlighted its relevance in pharmaceutical research and development. Attendees engaged in discussions during the interactive session, gaining a deeper understanding of the challenges and nuances associated with this approach. The event concluded with a call to apply the principles learned, fostering a culture of informed decision-making among students and faculty within the Department of Pharmaceutics at Moonray Institute of Pharmaceutical Sciences.</p>
